

Emergency Action Planning and Responses

Diversified Security Solutions, Inc. has emerged as a leader in emergency action planning. DSSI offers a unique process which involves building staff, tenants and external agencies in the planning process itself. Designed specifically for each building/company, our facilitated program of planning meetings and exercises produce understandable and executable response plans. DSSI provides training, conducts drills and offers emergency notification for both building staff and tenants in order to ensure the safety of a business' biggest asset: its people.

Emergency Action Plans

Helping organizations respond quickly and effectively to an emergency situation by:

- Assessing likely threats and hazards an organization may face
- Identifying members of the organization to serve on the emergency management team and emergency response team
- Establishing rapid and effective means of communication and emergency notification
- Allows for rapid implementation of predetermined responses to a variety of threats and emergency situations
- Pre-positioning emergency supplies and equipment
- Identifying and equipping an area to be utilized as a command center in an emergency
- Preparing a written emergency action plan
- Training: lectures, tabletop exercises, live drills

Fire Safety Consultation

- Conduct annually required training and drills
- On-site coordination with Floor Wardens and Deputy Floor Wardens
- Instruction/discussion regarding the differences and similarities of New York City Local Laws 5 & 26

Business Continuity/Disaster Recovery

- Business impact analysis
- Identification of critical business systems/functions
- Define business recovery requirements
- Develop recovery strategy
- Develop detailed recovery plans
- Test recovery capability
